## + ABOUT ME

Senior Frontend Developer, focused on building performant and engaging User Interfaces.

Specialised in building mobile-first responsive MVPs (websites or single page applications)

Provide me a design for inspiration and team me up with a backend developer to get the best of my skills.

## + REFERENCES

*David is a rare talent and one of the best front-end developers I've had the pleasure of working with.*

*He is incredibly dependable, quick at learning new technologies and stays abreast of the latest trends.*

Darren Shelley  
Web Development Manager  
[LinkedIn recommendation]

## + EXPERIENCE

- The Foundry UK Jan 2017 – Present  
Building the interface of the new **foundry.com** and two campaign landing pages. (Design provided by external agency). Tech: jQuery, Drupal 8, Gulp, Post-CSS, Less, Docker  
[www.foundry.com](http://www.foundry.com)  
[www.foundry.com/industries/film-television/decade-of-vfx-winners](http://www.foundry.com/industries/film-television/decade-of-vfx-winners)
- Cancer Research UK Aug 2016 – Dec 2016  
I joined the project to cover a 20 days' paternity leave, and my contract was extended to work on multiple online shops, including the main CRUK main shop.  
Tech: jQuery, React, searchkit, Drupal 7, Sass, Gulp, Vagrant, git  
[shop.cancerresearchuk.org/](http://shop.cancerresearchuk.org/)  
[www.standuptocancer.org.uk/](http://www.standuptocancer.org.uk/)  
[raceforlifeshop.cancerresearchuk.org](http://raceforlifeshop.cancerresearchuk.org)
- Previously ...  
I worked in Electric Word PLC during 2015-2016 and I lived in Finland from 2009 to 2015, working mainly as Drupal developer for Digital Agencies, specializing in front end and JavaScript during the last 4 years.  
I have always worked in Agile teams, using git and best practices. Including projects for the UK government, high traffic online shops, big media/TV companies, and startups.
